WORK EXPERIENCE:

AxonVR

Web Designer & Developer

Seattle, WA | 10/2015 - Present

- Worked with client to translate business requirements and designed a website from a limited pool of assets
- Coded entire website using Bootstrap, HTML, CSS, and Javascript
- Edited assets using Photoshop to fit website requirements

Microsoft

Program Manager Intern

Shanghai, China | 6/2014 - 9/2014

- Lead a small team using the Agile process to develop a code tracking dashboard for developers that served an entire internal organization
- Interviewed and analyzed team leads, organization leadership, and engineers to identify needs and goals
- Designed initial mock-up, refined user scenarios for use with the UX team

UW-IT Creative Communications

Information Systems Student Assistant

Seattle, WA | 9/2013 - 6/2014

- Tier 1 tech support for UW Staff and Students
- Conducted research on incentivizing and developing an email-to-print system for UW called "MobilePrint"
- Designed initial mock-up, refined user scenarios for use with the UX team
- Developed "MobilePrint" with three other students
- Managed local servers and infrastructure for UW's Creative Communications department

Microsoft

Program Manager Intern

Shanghai, China | 11/2012 - 9/2013

- Developed a job monitoring dashboard, system log page, and worked on a messaging system between back-end systems
- Worked with and lead a scrum team of UX, another PM, and Dev team to drive for buy-in
- Scrubbed data and localized messages for production use with technical writers
- Presented analysis and wrote functional specs for sign-off
